PROFESSIONAL SUMMARY

Frontend Developer and UI/UX enthusiast with hands-on experience building responsive web applications using React and Bootstrap. Experienced in working on live client projects, collaborating with stakeholders and translating requirements into functional and visually appealing digital solutions. Passionate about creating intuitive user experiences and scalable frontend systems.

SKILLS

Frontend Development: React, HTML, CSS, JavaScript, Bootstrap

UI/UX Design: Figma, User Interface Design, Wireframing

Programming: C, C++

Soft Skills: Adaptability, Self-Directed Learning, Solution-Oriented Approach

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Royals Webtech Pvt. Ltd. | July 2025 – Present

- Collaborate with clients to understand business requirements and translate them into functional web interfaces.
- Contribute to multiple live client-based projects, delivering responsive and user-friendly frontend solutions.
- Support UI/UX design implementation and assist with backend logic integration where required.

PROJECTS

HomeVerse | React & Bootstrap

- Developed a responsive real estate web application that allows users to browse, explore property listings through an intuitive and user-friendly interface.
- Implemented reusable React components and optimized frontend performance to deliver fast loading times and consistent cross-device experience.
- Integrated direct communication options enabling users to connect instantly with the admin via WhatsApp or Gmail for inquiries, property details and follow-up discussions.
- Structured the platform to provide clear property information, seamless navigation, and simplified contact flow to enhance overall user experience.
- Live Demo : <https://homeverse-apk.netlify.app/>
- GitHub : <https://github.com/architpatle/HomeVerse>
